Education

Rutgers University–New Brunswick

School of Arts and Sciences · B.S. in Computer Science and Data Science (CS&DS)

Expected graduation: May 2030

Bridgewater-Raritan High School

High School Diploma · 2026

Experience

AI Intern

Codestax · Feb 2026 – Apr 2026

- Contributed to improving and simplifying the end-user experience of an AI-powered application during a three-month internship.
- Used iterative testing and design feedback to support user-experience improvements.

Cybersecurity Intern

New Jersey Cybersecurity & Communications Integration Cell (NJCCIC) · Jun 2025 – Aug 2025

- Researched and analyzed security vulnerabilities across government networks and systems, supporting statewide cyber-risk identification and mitigation efforts.
- Investigated emerging threats and attack vectors affecting public-sector IT infrastructure, documenting findings for risk assessment and incident response readiness.

Assistant Instructor & Head of Digital Operations

Prince Martial Arts · Sep 2024 – Sep 2026

- Assisted classes across skill levels, reinforcing discipline, technique, and safety.
- Administered the school's website and social media accounts as head of digital operations.

Client website development

Web-design business

- Built websites for clients through my web-design business.

Projects

CampusOS · 2026

React · Node.js · Google Calendar API

I consolidated six academic workflows into a responsive full-stack application and engineered automated data pipelines that turn natural-language input and syllabus content into structured assignments, grading schemas, and calendar-ready exports.

MarketPilot AI · 2026

Python · Claude API

I built a personal AI assistant using the Claude API to analyze market data and generate recommendations, and designed a predictive insight layer combining current conditions with forward-looking trend analysis.

Technical skills

Languages & development

Java · Python · SQL · React · Node.js

Cloud, AI & tools

Microsoft Azure · Claude API · Prompt Engineering · Git · Android Studio · VS Code

Security

Vulnerability Assessment · Threat Research · Risk Analysis · Security Compliance · IAM · Incident Response Fundamentals · Cloud Security Fundamentals

Certifications

Status and dates from the supplied Microsoft credential record.

Microsoft Certified: Azure AI Engineer Associate

Active · Earned December 28, 2024 · Expires December 28, 2026

Microsoft Certified: Azure AI Apps and Agents Developer Associate

Active · Earned August 9, 2026 · Expires August 9, 2027

Microsoft Certified: Security, Compliance, and Identity Fundamentals

Active · Earned July 31, 2025

Microsoft Certified: Azure AI Fundamentals

Active · Earned April 3, 2024

Microsoft Certified: Azure Data Scientist Associate

Expired · Earned July 10, 2025

Microsoft credential profile 

Leadership & community

Volunteer AI/ML Instructor · Community Temple Program

- Designed and taught an introductory AI/ML curriculum for middle and high school students.

President & Founder · Automotive Engineering and Design Club

1 year

- President of the Automotive Engineering and Design Club; founded the club.

Robotics & forensics · Clubs & competition

- Robotics Club member (1 year); Forensics Club (3 years).
- FIRST Robotics Team 303 and debate participation; karate brown belt.
